Summary

Last few years I have spent most of my time learning JavaScript, Reactjs, nodejs and doing some competitive programming and I have spent most of my time learning Frontend development. Now I want to use my whole skill to do something real. That's why I am seeking a job/intern that will allow me to gain experience and measure my performance. I believe I am a fast learner.

Skill highlights

- **Programming Languages:** JavaScript | C++ | C
- **Programming Knowledge:** Algorithms and Data Structures.
- **Front-End Framework:** React | Bootstrap | Tailwind
- **DBMS :** SQL | MongoDB
- **Build tools :** Git
